Thanks Harry. Glad you found the email addresses. I'm remaining optimistic on Nevada's ability to work a financial deal between the local agriculture industry, mining, and the State. The meeting's we've had are encouraging, but when we're talking about the amount of funding we need to tackle OU-8, the conversation gets complicated. I will say that everyone is committed to come up with a solution over the next couple months, although some of the variables to success are hard to control on our end. We'll see.

Jeff:

Here is a copy of the Jared letter in case you do not have it.

Our cc list on the letter was the same as the list on the Governor's 01/29/2016 letter. However, I find that I have contact info for neither Mayor Dini nor Chairman Fierro. Do you have address or email contact info for either of them?

Many thanks.

Harry

Greg: FYI, Angeles is out this week on travel so it may be a bit tougher to coordinate with her. Regarding Jared's desire to meet with agriculture representatives, I am wondering if you think it would make sense to have that meeting in Carson City at NDEP – just a thought. Also, I am about to share with the cc list Jared's letter from yesterday. We were holding it until we knew that the Governor had received the original correspondence. However, Harry Reid's office called to check on the status of our response and I understand our Congressional folks did send a copy to his staff earlier this morning. Regards, Harry

Angeles,

I have reached out to locals on a potential March 4 meeting in Yerington, as suggested by Jared to Leo. Will let you know when I hear back.

Greg
